PREFACE

We have proudly celebrated the 50th anniversary of the foundation of Hacettepe University. We take pride in being one of the most successful universities in Turkey and being ranked among the leading universities in the World. Since the year 1967, when Hacettepe earned the status of ‘University’, it has never given up on its principle of continuously going ahead and reaching for the very best. Hacettepe, always preserving its values and basic principles, has become a pioneer university that has been intertwined with the society and pursued innovations, achieving many “firsts” ahead of others.

From medicine to biology, philosophy, statistics, physics and chemistry; from history of arts to the English, German and French languages; from sociology to engineering, fine arts and conservatory, Hacettepe University started almost 50 years ago developing interdisciplinary collaborations across a wide range of scientific fields, a research trend which has achieved a status of global recognition in the 21st century.

Hacettepe University, which was recognized as “Research University” by the decision of Council of Higher Education, dated September 26, 2017, has built a strong “brand” image over these 50 years with its qualified and unique contributions to science in Turkey and has been the country’s gateway to global scientific advances. It has graduated tens of thousands of students, each of whom has been our source of pride with their contributions to science, society and humanity as well as with their worldwide achievements. So have its graduates always been proud of Hacettepe.

Hacettepe University owes its success to its people who have always aimed to move forward by promoting interdisciplinarity and without giving up on the understanding “To the leading edge..... Toward being the best.....”

The Turkish and English series of books you are presented have been prepared in memory of the 50th anniversary of Hacettepe University by Prof. Dr. Adil Denizli, a distinguished researcher and faculty member who has heartily

devoted himself to his university and science. Among the editors and authors of the book series are respected scientists from Hacettepe University, Turkey and abroad. The series covers the studies from the multi-/interdisciplinary research areas of sciences, mainly from Medicine, Science and Engineering Sciences, which particularly stand out among the World's and Hacettepe's research interests.

Readers benefiting from these books will certainly appreciate the value of the profound contributions Hacettepe University made to science both in the country and in the World each time they see the name of "Hacettepe University" in the context of the authors, editors, footnotes, citations and bibliographies. This work is an expression of respect for Hacettepe University and for those who have meticulously served in this university for 50 years with an interdisciplinary understanding.

Thank you Adil Denizli... I would like to express my sincere gratitude and thanks to all those who have contributed to this precious work.

I wish many 50 more years to go forward in line with our motto "To the leading edge... Toward being the best..."

Prof. Dr. A. Haluk ÖZEN
Rector

PREFACE

In 1954 “Hacettepe” was founded in two chambers of an old Ankara house as a Chair of Child Health, then in 1967 officially earned “university” status. Hacettepe University celebrated its 50th anniversary in 2017 by proud of rich heritage and the positive, life-changing impact globally through the strength of our research, teaching, innovation and enterprise. In just 50 years Hacettepe University has managed to forge a powerful global reputation as a strong research-led university. To celebrate 50th anniversary numerous standout events were planned and performed by proud of past and dreaming of the future.

The Hacettepe Book Series are published to honor the five decades of work not only for the field but also for society at large and to leave the scientific mark of Hacettepe University to the history.

Adil Denizli, Ph.D
Editor

CONTENTS

CHAPTER 1

MOLECULAR IMPRINTING METHODS: FROM THE PAST TO THE FUTURE

Yeşeren Saylan and Adil Denizli..... 1

CHAPTER 2

GOLD NANOPARTICLES AND MOLECULAR IMPRINTING TECHNIQUE

Erdoğan Özgür, Erkut Yılmaz, Aykut Topçu and Adil Denizli..... 33

CHAPTER 3

MOLECULAR IMPRINTING TECHNOLOGY: A NEW TOOL FOR ADVANCED DRUG DELIVERY SYSTEMS

Kemal Çetin, Handan Yavuz, Nilay Bereli and Adil Denizli..... 47

CHAPTER 4

PHARMACEUTICAL APPLICATIONS OF MICRO- AND NANOMATERIALS BASED ON MOLECULAR IMPRINTING TECHNOLOGY

Rüstem Keçili..... 67

CHAPTER 5

MOLECULAR IMPRINTING TECHNOLOGY FOR CAPILLARY ELECTROCHROMATOGRAPHY SYSTEM

Ali Derazshamshir, Ilgım Göktürk, Fatma Yılmaz, Adil Denizli..... 95

CHAPTER 6

ION IMPRINTED POLYMERS

Emel Tamahkar, Işık Perçin, Müge Andaç and Adil Denizli 143

SUBJECT INDEX 167

Prof. Dr. Adil Denizli was born on 1962 in Ankara. He completed elementary and high schools in Ankara. He graduated from Chemical Engineering Department of Hacettepe University in 1985. He completed his MSc in 1986 with the studies on "Controlled Delivery of Anticancer Drugs from Polymeric Matrices". He got his PhD "Specific Sorbents for Hemoperfusion" in 1992. He became an Associate Professor of Chemical Technologies in 1994. Dr. Denizli is the Hacettepe University Department of Chemistry Professor since 2000. Dr. Denizli has written over 500 articles and 5 invited review articles and 25 book chapters. He published 42 research articles in national journals and 100 popular science articles. He has 2 patents. He is one of the most cited scientists in chemistry and engineering field (17000 citations, over 1500 citations in handbooks, encyclopedias, books and thesis, h-index of 67). He served as an associated member of the Turkish Academy of Sciences from 1999 to 2007, and as a full member since 2007. Dr. Denizli has received "TUBITAK Encouragement Award" in 1998 for his studies on "Biomedicine, Biotechnology and Environmental Applications of Polymeric Matrices". He also received TUBITAK Science Award and Basic Science Award of Popular Science Magazine in 2006. He elected as the most publishing scientist of Hacettepe University between 1995-2005 by COMSTECH. He is an editor of the "Protein Chromatography and New Generation Polymeric Systems" book (Pozitif Press, 2010) and the writer of "Bioseparation and Polymeric Carriers" (Turkish Academy of Sciences Press, 2011) and "Affinity Based Biosensors I and II" (2015) books, translation editor of "Stryer's Biochemistry" (Palme Press, 2014) and "Principles of Chemistry: A Molecular Approach" (Nobel Press, 2015) books. He is an Editorial Board Member of 25 journals. He has supervised 57 Master of Science and 40 PhD theses and 4 post Doctoral research up to now. He organized 17 "Chromatography Congress" and 11 "Affinity Techniques" congress, 5 Graduate Summer Schools and 4 Graduate Course. He is married with Dr. Fatma Denizli and has a one child (Alp Denizli).
